

Burlesque

A Naturally Better Stripper

Product Information

BURLESQUE floor finish stripper does an incredible job of removing synthetic finishes and natural waxes using cold water. Stripping floors comes easy with Burlesque due to its strong wetting, penetrating, emulsifying and suspending characteristics.

BURLESQUE has EcoLogo^M Certification (certified by ECP, an Environment Canada Program) which guarantees you are using one of the most environmentally responsible floor strippers that is available in today's marketplace.

BURLESQUE allows you to do one of the most labor intensive floor procedures with ease. Following the recommended procedures, Burlesque will remove most conventional finishes the first time.

BURLESQUE is a truly economical stripper for today's finishes:

Dilute Burlesque at 32 oz. per US gallon of cold water (250ml/litre) (1:4).

Apply as per directions on the label.

Note: Do not allow Burlesque to dry upon the floor. Should this happen, re-apply cold water. We recommend our environmentally preferred, zinc-free Evolution as a floor coating.

BURLESQUE does not have an objectionable odor. Its ability to penetrate several layers of built up floor finish, makes this difficult job a lot easier. The cold water formulation will save you time and labor.

BURLESQUE floor stripper is available in 2x2.6 gal (2x10L) TWIN PAKS and 4 x1 gal (4x3.78L) cases.

MATERIAL SAFETY DATA SHEET

SECTION 1 – PRODUCT/MANUFACTURER'S IDENTITY

Product Name: **BURLESQUE**

WHMIS CODE: D2B

Proper Shipping Name: N/A

Hazard Class: N/A

UN Number: N/A

Product Use: *Non-corrosive Floor Stripper*

M-chem Technologies Inc.
1607 Derwent Way
Delta, BC V3M 6K8, Canada
Phone: (604) 526-5655

EMERGENCY PHONE
Canada: Canutec 613-996-6666
U.S.A.: Chemtrec 800-424-9300

HMIS	
2	Health
0	Flammability
0	Reactivity
B	Personal

A=Goggles, B=Goggles & Gloves
C=Goggles, Gloves and Apron

ABBREVIATION KEY: N/A=Not Applicable, N/E=Not Established, N/D=Not Determined, > =Greater Than

SECTION 2 – HAZARDOUS INGREDIENTS INFORMATION

INGREDIENT	CAS NO.	RANGE %	PEL	TLV
MONOETHANOLAMINE LD50 (oral rat) 1720 mg/kg	141-43-5	5.0 - 10.0	3 ppm	3 ppm
CAPRYLIC ACID LD50 (oral rat) 10,080 mg/kg	124-07-2	1.0 - 5.0	N/A	N/A
ETHYLENE GLYCOL MONOPHENYL ETHER LD50 (oral rat) 1260 mg/kg	122-99-6	5.0 - 10.0	N/A	N/A

SECTION 3 – PHYSICAL DATA

Color and Odor: Clear, pale red/mild(no frag.)	Boiling Point: 100°C	Vapor Pressure (mm HG): 0.6	pH: 10.5 +/- 0.5
Physical State: Liquid.	Melting Point: N/A	Vapor Density: N/D	Specific Gravity: 1.00 @ 20°C
Coeff. Water/Oil Dist: Greater than 1.0	Evaporation Rate: 1.0	Solubility in Water: Soluble	Odor Threshold: No Data

SECTION 4 – FIRE AND EXPLOSION HAZARD DATA

Flash Point and Method: None to 100°C (TCC)	Sensitivity to Mechanical Impact: None
Extinguishing Media: Water, dry, foam, carbon dioxide.	Flammable Limits: None known.
Sensitivity to Static Discharge: None.	Auto ignition Temperature: None known.
Conditions of Flammability: None.	Unusual Fire and Explosion Hazards: None known.
Hazardous Combustion Products: Oxides of carbon and sulfur, and other possible unidentifiable organic compounds.	
Special Fire Fighting: Wear full protective equipment, including a NIOSH/MSHA approved, self-contained breathing apparatus for fire fighting situations. Use water spray to cool all nearby fire exposed surfaces.	

SECTION 5 – REACTIVITY DATA

Chemical Stability: Stable under normal storage conditions.	Hazardous Polymerization: Will not Occur.
Incompatibility (material to avoid): Strong oxides, bleaches or acids.	
Hazardous Decomposition Products: Decomposition may produce oxides of carbon and other unidentifiable organic compounds.	

SECTION 6 – TOXICOLOGICAL DATA

Exposure Limits: See Section 2 under Hazardous Ingredient.	Routes of Entry: Skin and eyes.
Irritancy of Product: Severe eye irritant and slight skin irritant.	Carcinogenicity: None known.
Sensitization: May occur in some individuals.	Mutagenicity: None known.
Name of Toxicological Synergistic Product: None known.	Reproductive Toxicity: None known.
Teratogenicity: None known.	
Effects of Chronic Exposure: May cause defatting or dermatitis of skin tissue.	
Effects of Acute Exposure: For eyes, redness or burning sensation; For skin, redness or warm sensation; Ingestion may cause headache or nausea.	

SECTION 7 – PREVENTATIVE AND CONTROL MEASURES

Respiratory Protection: None required. If inhalation of concentrated product, mist or spray is likely, use a NIOSH/MSHA approved dust/mist respirator.

Ventilation: Good general ventilation or local exhaust ventilation for spraying and misting in confined areas.

Protective Gloves: Rubber gloves are recommended to minimize skin dryness from prolonged or repeated skin contact.

Eye Protection: Normally not required. However, wearing safety goggles are recommended if there is a risk of product splashing into eyes during usage.

Protective Clothing and Equipment: Long sleeve coveralls. Eye wash recommended in the immediate work area.

Storage and Handling Procedures: Use good industrial hygiene. Do not get in eyes. Avoid contact with skin and clothing. Avoid breathing sprays or mists. Store in a cool, dry place away from incompatibles. Keep container closed when not in use. Do not mix with any other chemicals. Store at temperatures below 30°C (86°F) and keep from freezing.

Disposal Procedures for Spills or Leaks: Wear protective equipment. Dike and contain large spills. Pump spills into an approved waste container. For small spills, soak up with a suitable absorbent such as clay, soil or commercially available absorbents, and then dispose of into an approved waste container. Keep away from sewers and out of natural waters.

Waste Disposal Method: Reuse if possible, or otherwise dispose recovered material in accordance with all local, Provincial or Federal Regulations.

Special Shipping Information: Store at temperatures below 30°C (86°F) and keep from freezing.

SECTION 8 – EMERGENCY FIRST AID PROCEDURES

First Aid: If swallowed, give plenty of clean water to drink to dilute product. Do not induce vomiting. Call a Physician. In case of contact with eyes, flush with clean water for 15 minutes. Get medical attention. For contact with skin, wash with clean water and rinse well. If irritation occurs or persists, get medical attention.
