

Good Riddance

A Naturally Better Treatment
for Odor Control

Product Information

GOOD RIDDANCE contains natural micro-organisms that will reduce unpleasant odors that are created in restrooms by urine and feces. Unlike masking agents which cover up problem areas, it will neutralize the foul odors at the source.

GOOD RIDDANCE cleans and leaves a unique bio-film on the treated surface which helps to prevent any build-up of organic matter. It has a fast acting component that has a residual effect lasting for several hours.

GOOD RIDDANCE is an environmentally responsible product that does not contain any harsh solvents, acids or alkalis. The non-corrosive formulation leaves a pleasant scent while maintaining its residual effect.

GOOD RIDDANCE should be your #1 choice for odor control in restrooms or wherever unpleasant odors occur. Good Riddance can be used by hand spray, pump spray or automated dispensing systems.

GOOD RIDDANCE can be added to automated dispensing systems for urinals or toilets. The dilution will vary from 1:1 (1000 ml/L)(128 oz/gal) to 1:4 (250 ml/L)(32 oz/gal) depending on the severity of the nauseous odors.

Generally, manual spray will be at 1:4 (250 ml/L)(32 oz/gal), yet a second application may be necessary under severe conditions. Let sit overnight and wash as usual the next day.

For regular duty and maintenance, dilute Good Riddance 1:32 (32 ml/L)(4 oz/gal) with water and spray generously on soiled surface. Let sit 3-5 minutes and clean using a cloth, sponge or mop. No rinsing required.

GOOD RIDDANCE is available in 4x1 gallon (4x3.78L) and 12x1qt (12x946ml) cases.
