

DESCRIPTION

Luxture is a water-based furniture and surface polish. It can be used on many types of surfaces including rubber, plastic, vinyl, leatherette and wood in the home or in vehicles.

Luxture contains silicone and an ultra-violet active that keeps your furniture and surfaces clean and well-protected while improving the appearance and feel of the surface. **Luxture** does not contain waxes or solvents and will not leave a build-up or a greasy feeling on the surface.

Luxture removes dust, fingerprints and even some light soils while improving the surface luster and leaves a very smooth, soft feel.

Luxture is pleasant to use and is easy to apply. It has a fresh lemony fragrance that leaves your surfaces smelling fresh and clean while protecting it with a micro-thin, water repelling finish.

DIRECTIONS

Shake gently before using.

For large surfaces:

Spray **Luxture** directly on surface and use a clean, soft cloth to wipe down the surface and spread film evenly.

For smaller surfaces or objects:

Spray a light mist on a clean, soft cloth and wipe down the object.

Not for use on mirrors as it will cause haziness. Do not spray or get onto any floor surfaces as it may cause slipperiness.
