

Liquid Germicidal Detergent

DESCRIPTION

Phenokil II is an amber-coloured, liquid, phenolic-based germicide designed for cleaning and disinfecting all hard surfaces that are not adversely affected by water.

Phenokil II is non-corrosive in use dilutions on inanimate, hard surfaces and is effective in soft or hard water.

Phenokil II quickly kills most disease-causing bacteria and is effective against both gram positive and gram negative pathogens.

Phenokil II is excellent for use in hospitals, nursing homes, schools and in all other commercial or industrial buildings where a broad-spectrum disinfectant is required.
